SEMINAR FACT SHEET

The Financial Skills Workshop for Non-Financial Executives: Be Prepared to Meet With Financial Professionals COURSE NO. ARC 023

SEMINAR OVERVIEW

Business executives need to understand the financial factors critical to business success. This interactive Executive Level program will give you the tools essential to work with the financial professionals in your organization. You will be well equipped to actively participant in the financial portions of executive staff meetings, evaluate quarterly and monthly financials, evaluate budget variances, and determine the feasibility of investing in the capital infrastructure of your company. The program is for senior managers who need to understand the long-term vision of their organization, and how to make the hard decisions that impact the profitability and stability of your strategic business unit.

WHO SHOULD ATTEND

Senior managers, non-financial executives, heads of strategic business units, and other senior members who needs to understand how to read financial statements, budget variance reports, supplier and customer financial reports, or any financial report that supports key and critical decisions. If you need to know the language of business, this is ESSENTIAL Training.

AUDIT PROFESSIONALS	FINANCIAL PROFESSIONALS	TECHNICAL PROFESSIONALS	OPERATIONAL PROFESSIONALS	STRATEGIC MANAGEMENT

■ Managers	Directors	Proj. Managers	■ Managers	■ Vice Presidents
■ Directors	VP's & CFO's	ISO & Quality	■ Plant Managers	■ CEO's

WHAT WILL BE COVERED

Through the use of real-world financial reports of U.S. public companies, you will learn how to “hold-your-own” with the financial professionals in your organization.

You will be able to project the:

- Benefits of Proposed capital projects, and how to determine which to pursue
- Feasibility of Bringing new products to market
- Potential Profitability from Reengineering existing processes
- Potential of new suppliers meeting your needs long-term
- Ability of new Customers to pay their bills
- Proposed synergies from new acquisitions or divestitures
- Profit-Enhancement potential of new strategies, and more!

You will understand the business from both a financial and strategic perspective.

ARC TRAINING GROUP

SPECIAL FEATURE: You can tailor this program by using your own financial reports and accounting practices in lieu of the standard case and examples provided with the materials at no additional charge. ARC will modify this program to reflect the unique aspects of your organization at no additional charge. ARC never charges for program customization.

HOW YOU WILL BENEFIT

You will learn how to evaluate the effectiveness of past strategic paradigms, critical decisions, and corporate initiatives. You will gain the confidence you need to participate in executive staff meetings, identify processes that drain profitability, and what you can do to enhance the value of your company.

This program will address tough issues such as:

- Learn the financial jargon and communicate effectively with the financial professionals
- Understand the role and the limitations of company financial reports
- Effectively identify financial and operational risks
- Tactics for “Profit-Enhancement” management
- Project the potential fiscal impact of business strategies
- Understand how to validate capital purchase decisions
- Develop leading-edge budgets that drive profitability

PROGRAM AGENDA

DAY ONE:

THE INTERNATIONAL BUSINESS ENVIRONMENT

- Overview of the strategic, tactical, and operational aspects of today’s global business entity
- What is driving the financial aspects of your business
- The Organizational Planning Model
- The Product/Decision/Information Cycle
- Recent U.S. Reporting Legislation: Sarbanes-Oxley

How to Effectively Communicate With Financial Professionals

- Learning the Financial “Jargon”
- The Nature and Purpose of The Accounting Regulations
- The Differences between Cash vs. Accrual Accounting and Why They Are Critical
- What is Presented in The Four Financial Statements
